

## Banish wrinkles with BOTOX® (TM by Allergan) and receive a bonus anti aging treatment worth £67!

Botox® is a simple, non-surgical treatment that can temporarily smooth moderate to severe lines around the eyes and brow. One 10 minute treatment involving a few tiny injections and within days you will see a noticeable improvement, feel more confident and youthful.

**All Botox® treatments booked before 31st October 2008 will include a free Microdermabrasion treatment valued at £63.**

This treatment super cleanses the pores to refine skin texture and boost production of fresh cells and collagen. This coupled with the Botox® treatment will complement each other brilliantly to eradicate the signs of aging and smooth wrinkles. The whole process can be performed in a lunch hour – allowing you to return to work with no after effects or bruising.

## Rejuvenate your skin this autumn with our exclusive offer!

The ideal way to brighten skin after the summer and boost your radiance is to try a skin peel and for a limited time only, you can book 3 glycolic peels for only £125! (worth £180).

Glycolic peels are superficial exfoliants that work primarily on very fine lines, abnormal pigmentation and rougher scaly blemishes. They can help reverse the signs of sun damage and ageing.

## PRODUCT OF THE MONTH

### SkinMedica TNS Recovery Complex

Over time, the human body loses the ability to heal resulting in a reduction of collagen antioxidants and skin elasticity. SkinMedica TNS is a skin-care product designed to promote skin regeneration through the application of topical growth factors and cytokines.

The SkinMedica range contains Nouricel-MD, which was discovered through research into wound healing and burn treatment. Nouricel-MD consists of a blend of human growth factors found naturally in healthy skin, including vascular endothelial, hepatocyte and keratinocyte. The combination consists of soluble collagen matrix proteins and antioxidants.

Tissue Nutrient Solution -TNS formula for improving skin texture and elasticity, contains more than 90% Nouricel-MD and is suitable for all skin types. TNS Recovery Complex helps to minimise the appearance of fine lines and wrinkles to improve skin texture and reduces photo damage and improves texture scarring.

## THANK GOODNESS IT'S FRIDAY!

Save up to a massive 30% on a selection of aesthetic and laser treatments booked on a Friday this month. Why not try our Non-Surgical Face Lift treatments 'Re-firme' to lift and tighten the skin, using the latest medical laser equipment with no side effects or down time.
