

10% OFF ALL MALE TREATMENTS AT SKIN-THETICS

We provide a broad spectrum of non-surgical treatments suitable for men, so whether you're looking for help with skin problems, such as acne, scarring or pigmentation; you're wishing to reduce the visible signs of ageing; or you simply want to protect and maintain the health of your skin for the future, we can offer you a variety of routes to achieve the results you desire.

BOTOX® (Trade Marked by Allergen)

Use some subtle Botox® to boost your career prospects.

With high expectations of job performance and increasing numbers of people applying for the same job the work place is becoming more competitive.

An excess of qualified eager young worker means that promotion is no longer simply dependent on qualifications; work experience and character. Professionals are seeking alternatives to boost their career prospects. In a culture where vitality and energy can be prized above age and experience, men may be feeling the pressure to look good? Career and image go hand in hand.

All of our Drs specialise in the use of anti-ageing treatments and will ensure your experience is informative, pain free and produces natural yet dramatic results.

Botox® can treat most areas of the face and smoothes wrinkles forming around the eye and forehead area by relaxing the muscles on a semi - permanent basis. Botox® is a safe and very effective way to treat wrinkles with no surgery involved, thus no chance of scarring and recovery time is minimal.

Treatments from £125

DON'T SWEAT IT!

Excessive sweating called HYPERHIDROSIS can be really embarrassing, not to mention expensive, when you add up your dry cleaning bills. You may sweat profusely under your arms. When Botox® is injected in to the muscle it considerably reduces the amount of sweat production.

Treatment can last for six months and.5m £125.

SHAVING BUMPS, RASHES AND INGROWING HAIRS

Called Pseudofolliculitis Barbae, shaving bumps are a widespread problem among men as the hair grows out of the skin it immediately curls or re-enters

the skin, the skin becomes inflamed and irritated, creating bumps on the face and mainly on the neck area. Laser hair removal treatments will permanently remove hair growth from those areas affected and therefore alleviate all of the inflamed and irritated skin.

Men can receive 10% discount on all laser hair removal treatments this month.

PERMANENT LASER HAIR REMOVAL

Excessive or unsightly body hair can be embarrassing for both men and women and difficult or inconvenient to remove. There are many methods to remove unwanted hair such as shaving, waxing or

electrolysis, none are permanent but laser hair removal is the most effective treatment available. Laser hair removal is a rapid, yet gentle way of removing unwanted hair, and is medically proven to give you permanent hair reduction. POPULAR-LASER AREAS for men include back, chest, abdomen, eyebrows nose, ears, beard, hands and fingers. Treatments from just £99.
