

YOU CAN LOOK AND FEEL YOUNGER FOR SUMMER

Reduce the signs of ageing this summer at Skin-Thetics - London's newest Aesthetics Clinic, using our highly effective range of anti-ageing treatments;

'REFIRME' the non-surgical face lift.

Four times more effective than other non-surgical face lifts on the market, we can help you enjoy youthful tightened and toned skin. The REFIRME skin tightening procedure works by

using combined BI-Polar radio frequency and light energy called Elos technology. Our tightening treatment gives collagen a boost and firms facial contours to counter the effects of gravity. Resurfacing sets advanced lasers to work on problem areas with brilliant results, producing a firming effect in the skin, and noticeable lifting. Achieve a youthful, tightened and lifted appearance without the inconvenience, trauma and downtime of surgery.

Refirme treatments are £95 each and a course of 6 £475

Book your treatment between 9.30 and 12 or 2pm and 5pm and receive a valuable discount on your package

BOTOX® (Trade Marked by Allergen)

A great Lunch Time Treatment - Quick Easy and Painless.

Botox® is fast becoming a very popular option for treating lines and wrinkles and as a preventative measure on younger skins. Be reassured, you are in the safest hands if you chose to have your Botox® treatment with one of Skin-Thetics Cosmetic Physicians and Dermatologists.

All of our Drs specialise in the use of anti-ageing treatments and will ensure your experience is informative, pain free and produces natural yet dramatic results.

Botox® can treat most areas of the face and smoothes wrinkles forming around the eye and forehead area by relaxing the muscles on a semi - permanent basis. Botox® is a safe and very effective way to treat wrinkles with no surgery involved, thus no chance of scarring and recovery time is minimal.

New improved dermal filler is launched on to the market

Dermal fillers are instant anti-ageing injections which lift and plump the skin - results are fantastic and last more than 12 months.

JUVADERM= is a 'next generation' family of smooth, long-lasting gel dermal fillers, and the latest advance in hyaluronic acid cosmetic filler technology. Hurray for the first painless hyaluronic acid filler, with added lidocaine (a mild anesthetic) makes it a lot less painful than other fillers plus it has a brilliant effect on lines/and wrinkles and volume for lips and cheeks. It's the fastest growing A list treatment that no one admits to! JUVADERM gives volume that makes you look prettier and youthful.

Before and after a Juvederm treatment for nasal labia lines
