Sparkle This Christmas

10% OFF SKIN REJUVENATION TREATMENTS IN DECEMBER

Say good bye to blemishes, acne pigmentation and enlarged pores.

Laser Skin Rejuvenation

Laser procedures have a very high level of patient satisfaction in treating blemishes, pigmentation, facial veins Roseacea "blush" or redness, The treatment covers the full face and addresses specific areas with isolated problems or imperfections.

Patients can see dramatic results within a very short time.

Microdermabrasion

This method of deep exfoliation will instantly deliver smooth radiant skin, just what we need for special Christmas events.

With multiple treatments and over time the results are more effective in improving many common skin problems such as pigmentation, enlarged pores and fine lines and wrinkles. The treatment super-cleanses pores to refine skin texture and boost production of fresh skin cells and collagen. Microdermabrasion leaves the skin feeling ultra clean, fresh and sparkling.

Lose 10 Years in 10 minutes

Botox for frown lines and wrinkles, eye lines and wrinkles, crows feet or worry lines.

This exceptional treatment for lines and wrinkles can take years off your face and eradicate the signs of aging and smooth wrinkles. At skin-thetics, Botox is only administered by our experienced team of Doctors and our clients are always delighted with the results.

Botox can really make a difference to the way you look giving a refreshed younger looking skin. The whole process can be performed in a lunch hour – allowing you to return to work with no after effects or bruising.
